## A UNIVERSAL FOOD

Following Nature's Footsteps.

"I have a boy, two years old, weighing forty pounds and in perfect health who has been raised on Grape-Nuts and milk."

"This is an ideal food and excellent for a baby as well as adults. We have used Grape-Nuts in large quantities and greatly to our advantage. The advantage about Grape-Nuts is that it is partially pre-digested in the process of manufacture. The starch contained in the wheat and barley is transformed, with the loss of sugar by the same method as this process is carried out in the human body, that is, by the use of heat and long exposure to moisture, which grows the digestible in the crumb, and with long baking makes the remarkable change from starch to sugar."

Therefore, the most delicate stomach can handle Grape-Nuts and the food is quickly absorbed into the blood and those, certain parts of it, go directly to building and nourishing both body and brain. "There's a Reason."

Have read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.—Advt.

## PAIR TO WED

Marriage Plans Put End to Breach of Promise Action.

Special to The Courier.

UNITED STATES, Aug. 12.—A marriage license was issued this forenoon by Register of Wills Charles O. Schaefer to James Arthur Collins of Adelphi and Miss Catherine Koller of Connellsville. The wedding of the pair will bring to a termination a breach of promise suit for heart balm which was started by Miss Koller. In her affidavit she alleged that Collins had agreed to marry her last Christmas, and had put off the wedding three times after the date had been set.

Collins is 29 years old, a foreman for the H. C. Frick Coke Company, and is a grandson of the late Clark Collins, a former postmaster of Connellsville. He is the son of Elmer E. Collins. Miss Koller is 27 years old, a domestic and daughter of Simon Koller of Connellsville. The consent of the parents of both Collins and Miss Koller were given to the marriage.

The pair will go to housekeeping in a new house which the father of Arthur Collins has built for them at Adelphi, where the husband is employed. Arrangements have been made for the marriage in the office of a Connellsville attorney this afternoon. Following the ceremony the couple will leave for Adelphi to begin housekeeping.

## HOW TO CAN PEACHES

Marion Harris Scott's Recipe for Preserving This Luscious Fruit.

For canning peaches, allow to every eight quarts two pounds of sugar and three quarts of water. Make a syrup with the sugar and water, stirring until the sugar is dissolved. Peel the peaches, and pack in sterilized quart jars.

Set the jars in oven in shallow pans half filled with boiling water.

Close the cover door cover, should be only moderately warm) and cook fruit fifteen minutes. Take from oven, adjust rubbers, fill each jar in turn with the boiling syrup, which should have been kept on the back of the stove.

Fill so that the sealing liquid runs over, put on top, wipe and seal. Cool and tighten tops.

Invert the jars and dip the tops into a pan of melted parowax of sufficient depth to immerse them an inch beyond the covers.

## SIXTHS DALE.

SIXTHS DALE, Aug. 11.—Mrs. Minnie Benford, wife of G. L. Benford, died at her home on Main street early Thursday morning at the age of 72 years, 11 months and 7 days. Deceased had been an invalid for the last three years. Her funeral will be at 2 o'clock, the services being conducted at her late residence by her pastor, the Rev. D. W. Michael of the Lutheran Church, of which she was a sincere and devout member. Mr. and Mrs. G. L. Benford came to Meyersdale in the early morning and have resided here ever since, with the exception of about two years when they lived in Salisbury. They were held in the highest esteem by all who knew them. Mr. Benford was a civil engineer, but for the last few years lived a retired life, devoting most of his time in caring for his wife, until 13 weeks ago, when he was stricken with paralysis, his right side being affected. He was recovering nicely and was able to move around a little and help himself from the bed to the bath, but the second affliction came on Thursday about 1 p. m. when he missed his footing in trying to get from the bed to the chair and fell, breaking his right limb just below the hip. In his condition it was thought best to have him removed to a hospital and he was taken to the Allegheny in Cumberland Tuesday afternoon, accompanied by his wife, but will return to attend his mother's funeral.

Miss Ethel E. Hamann, daughter of Mrs. Anna Hamann, and William E. Graves, son of Mr. and Mrs. W. A. Graves, were united in marriage on Sunday night at the home of the bride's mother. The only guests present were the families of the contracting parties. The bride for several years was one of the office girls at the central office of the Economy telephone and is very well known and has many friends. The groom is a very industrious young man and is employed in the Holston & McMillen grocery store.

## Chautauqua Institution—World Famous For Forty Years

Popular Resort Combines Fishing and Philosophy, Recreation and Religion, Outdoor Sports and Inspiration.

### ALL ROUND PROGRAM FOR 20,000 "FRIENDLY FOLKS."

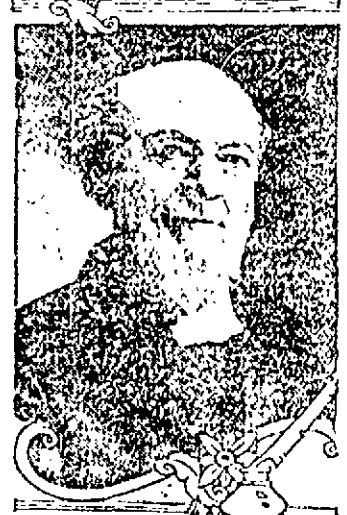

For over forty years Chautauqua Institution on the lake, at Chautauqua, N. Y., has been world famous as a summer resort, both for its educational features, which have been the pattern for all the home reading clubs, correspondence schools and the summer schools now connected with every great university, and for its general all round summer life.

Nowhere in the world can so extensive a program of lectures and concerts, dramatic entertainments, conferences of nation wide importance and platform entertainment be obtained, along with the equal of its bathing beaches, the twenty mile lake for boating, the golf course, fish ponds and trout streams, ball ground and a score of other athletic games and outdoor sports.

Not a Commercial Enterprise. But Chautauqua Institution is not a commercial enterprise, as many suppose. It is incorporated as an educational and philanthropic project. The income is derived from actual cost and is supplemented by endowment funds and yearly donations from good friends. Its summer schools and reading courses are also furnished at actual low cost figures.

Twenty thousand "friendly folks" make an average population at Chautauqua. They come from all the states of the Union. They come from China and Japan, from South America and from Europe, where Chautauqua, N. Y., has the reputation of an "American Mecca."

Chautauqua Life is "Different." One can be as quiet at Chautauqua as one chooses or as busy all day long. The long program of lectures by really great men, the diversity of the musical program and the platform entertainments by world celebrated artists will

BISHOP JOHN H. VINCENT.

The venerable founder of the summer assembly at Chautauqua, N. Y., whose foresight, humanity and energy developed an idea which has molded the national life, satisfy the desires of every type of mind. The daily offering of outdoor sports, such as golf and tennis and canoeing, bathing and boating of all kinds, track events, trampolining and riding and driving, give free play for those inclined to the athletic. The work of the summer schools occupies 2,000 adult students and runs the gamut from history to modern literature, from natural sciences under the best available teachers. These with the religious bent will find many worth while conferences and lecture courses.

America's Greatest Forum. Chautauqua—and there are millions of them—have a purpose in life. The kind, which John H. Vincent, the founder, so graciously cultivated in his people, was the balanced life, a strong body with a strong mind and a spiritual consciousness of life and its purpose which would give direction to each individual.

Nowhere in the world can so many great minds be met with in the same short space of time as at Chautauqua during the huge sixty-day program, which occupies the summer season through July and August. Without exception, the greatest statesmen, the best known authors, the wisest educators, the foremost politicians, the most famous travelers and the most active propagandists have all found a place there and a friendly welcome to Chautauqua's platform.

The great night theater, which seats 6,500 people comfortably and can accommodate 7,500, has been the scene of many an important address dealing with the greatest issues of the day. Six presidents of the United States have traveled this platform and praised the institution as the great world's forum that it is.

The necessities of this huge outdoor amphitheater are well known to speakers of every nationality. The open sides give perfect ventilation and comfort during even the hottest days of the year. Five years ago a magnificent Meany organ, the gift of the manufacturer and worth at least \$30,000, was installed.

To have been a member of this Chautauqua audience is to have enjoyed a tremendous privilege. To have been a speaker on this greatest of the world's public forums is a distinction which thousands covet and but a comparatively few enjoy.

Expensive "Talent."

More money is spent on "talent" for

Chautauqua's eight week program than would be suspected by the 25,000 people who get its full benefits for the small gate fee of \$5 per season. The budget runs into the tens of thousands. But the very best is thereby obtained—statesmen fresh from their duties at Washington or the various state capitals, authorities on social and professional lines from the big universities, musicians just off tours, preachers whose names are household words and entertainers of the highest grade.

Very often there are forty events or more scheduled daily. And at least 120 lectures and 200 popular concerts are given during the period, so that every type of mind and individual taste may find something of information, education or inspiration to carry home for the coming year.

Chautauqua life brings speakers and audience close together with its air of comfort and informality.

### WORLD'S GREATEST PUBLIC FORUM—CHAUTAUQUA, N. Y.

#### Sixty Day Assembly Will Have Big Speakers and Mammoth Program.

The leaders in American life and thought have always found the Chautauqua platform hospitably open to them, and there have been very few of the nation's great statesmen, authors, educators, travelers and propagandists who have not appeared before Chautauqua assembly at some time during the last forty years.

This coming season a noted and varied array of such talent is offered: Mary Antin, world famous as a young Jewish author and champion of the immigrant, will lecture. E. J. Ward, Wisconsin's state adviser on civic development, will direct a week's work on "Community Service." Henry Turner Bailey, America's greatest exponent of art in every day life, just returned from his post of awarding prizes at the Panama-Pacific Exposition, will spend the summer at Chautauqua.

Mrs. Percy V. Pennybacker, president of the General Federation of Women's Clubs, will give general addresses and also conduct special exercises for her constituency. Charles H. Kennedy and his wife, the well known actress, Edith Wynne Matthison, will give a series of recitals from his written plays, "The Servant in the House," "The Terrible Mock," etc.

Special addresses will also be given by Thomas Mott Osborne, warden of Sing Sing penitentiary, noted for his advanced prison methods; Hamilton Wright Mable, literary editor of Outlook Magazine; Harold J. Howard, associate editor of Independent Magazine; Hubert Stephen S. Wise of New York; Amos P. Wilder, Dr. Katharine B. Davis, New York's commissioner of correction, and Superintendent William M. Jackson of the Pittsburgh public schools.

The Chautauqua Players, under the lead of M. Benedict Papot, "the leading amateur actor in America," will present a series of well known plays, one each week. Music will be represented by the Chautauqua chorus of 500, under Mr. Hoffman, and by the famous Russian Symphony Orchestra, with William Wade Hinchshaw of the Metropolitan Opera Company and Ernest Hutchinson, noted pianist, as soloists.

The religious features of the program will be in the hands of Dean Shailer Mathews, president of the Federal Council of Churches and head of the Chicago Theological School at the University of Chicago. He has just returned from a special mission to Japan in the interests of international peace. Such figures as Dr. Frank W. Gunsaulus, president of Armour Institute; Bishop Charles D. Williams, Protestant Episcopal Bishop of Michigan; Bishop John H. Vincent, chancellor of Chautauqua; Bishop Francis J. McConnell of Denver and Dr. Samuel B. McCormick, University of Pittsburgh, will also be on the program for a series of talks.

Special weeks this summer will be devoted to particularly live topics. Justice and the courts will be an open question for some 60 lawyers to wrangle over, under the leadership of Justice William L. Ransom of New York City's city court. George W. Alger will be featured with his series of lectures, based on matter recently published in the World's Work Magazine. And Dr. Katharine Bennett Davis, New York city commissioner of correction, will speak on "Prison Reform."

Temperance week will bring a live discussion of the national prohibition campaign. Ex-Governor Malcolm H. Patterson of Tennessee will tell "Why I Chimed Front on the Liquor Question," and Hon. J. Denny O'Neill of Pittsburgh will speak on "Prohibition From the Business Man's Point of View." Many other prohibition and temperance speakers will attend, and William Jennings Bryan has indicated his desire to be present.

#### Week of the Great War.

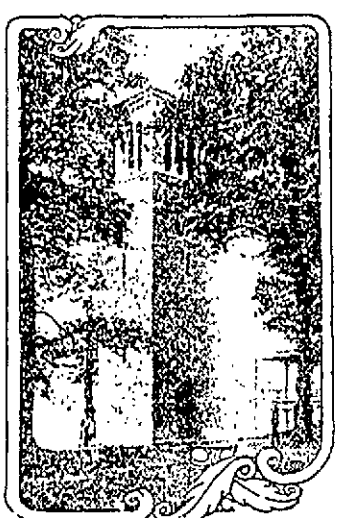

A week devoted to a study of the "War of Eleven Nations in Europe" will find several speakers of authority who are just back from the front. Dr. Lincoln Wirt, special representative for the World Peace Foundation and the Boston Herald, will return to make his first public report at Chautauqua. Norman Angell, whose books showing the logical failure of war upset modern ideas as to its necessity, will ex-

ound his widely quoted views. Dr. Herbert Adams Gibbons, special writer for the New York Herald and author of two recent books dealing with "Changes in Europe," will conduct summer classes and lecture on the subject. Director Arthur Bestor will describe Europe's war torments from his recent intimate studies of their personalities, and Sanford Griffith, who has just returned from Belgium, where he served as "special field investigator," will describe the horrors of war and life at the front as he saw it.

Community affairs will be discussed in every possible connection during a week in which sessions will be led by Mr. E. J. Ward, Wisconsin's state adviser on civic improvements and the like. Social centers in the city and public school centers in the country will be particularly featured. Internationalism and Christianity will be the final week, and the theme will be "What is the Duty of Christianity in Power in the Present Military Crisis?" Dr. Frank Gunsaulus, Dr. Charles B. Jefferson, Bishop James W. Bashford, Dr. Leonard C. Barnes, Hon. Amos P. Wilder and Hon. John Lind, who was President Wilson's personal representative in Mexico, will be among the speakers.

### TOWER OF CHIMES.

The bell tower erected in honor of Lewis Miller by Mrs. Thomas A. Miller, his daughter, and other children, a huge set of Menzies chimes tell the

hour, toll the curfew and play over popular airs and hymn tunes for the "20,000 friendly folks" at Chautauqua, N. Y. Its cupola offers a splendid view of Chautauqua lake.

### Religious Conference Program at Chautauqua, N. Y.

Religious interest at Chautauqua Institution, Chautauqua, N. Y., has always been a "fact" rather than a demand. It has been a factor in that remarkable assembly which Theodore Roosevelt has called "the most American thing in America."

Bishop Vincent, the founder, always attracted the ablest and most sincere men from all walks of life for his famous sixty day forum program, whether they were ministers or statesmen or presidents of the United States.

Most summer assemblies are either operated by some religious sect as a philanthropy or are launched as a commercial enterprise pure and simple. Chautauqua Institution, however, was carefully kept on a non-sectarian basis from its very beginning in 1874. Every denomination has been invited to its platform and church houses are at present maintained by Congregational, Methodist, Episcopal, Presbyterian, United Presbyterian, Protestant Episcopal, Baptist, Disciples, Unitarian and Lutheran societies.

Dean Shailer Mathews of Chicago, Theological seminary and president of the Federal Council of Churches has charge of the religious department, its lectures and study courses. Other famous preachers, such as Dr. Frank W. Gunsaulus, president of Armour Institute; Bishop Charles D. Williams, Protestant Episcopal Bishop of Michigan; Bishop Francis J. McConnell of Denver; Dr. Samuel B. McCormick, University of Pittsburgh, take part at Chautauqua, N. Y.

### CHAUTAUQUA.

What the Word Means and Where It Came From.

An Indian chief pulled a big muskeltunge from the cool waters of a twenty mile lake and properly called it Chautauqua lake. Bishop Vincent and his coworker, Lewis Miller of Akron, O., caught a beautiful point on its shores for their convention of Sunday school teachers in 1874. And with Bishop Vincent's popular ideas for educating folks of middle age and teaching them how to enjoy life the place grew into an institution at Chautauqua, N. Y., that is now world famous.

The name is borne by five towns in Illinois, Kansas, New York, Texas and Washington, by many industries in western New York state, by apartment houses in New York city and by a sleeping car and a ferry on the Hudson. The name has been adopted by 3,000 popular institutions of the "York" Chautauqua. The majority of these travel from place to place on a "circuit" and are managed by independent bureaus in the same way a circus is handled.

Chautauqua Institution has been incorporated on the spot made famous by Bishop John H. Vincent and is conducted as a educational and philanthropic enterprise by a board of trustees under the presidency of his son, George E. Vincent, president of the University of Minnesota.

The world's greatest public forum and one of the world's largest summer schools are held here during the summer months of July and August.

### SUMMER PLAYERS AT CHAUTAUQUA, N. Y.

Wonderful Amateur Company Produces Best Plays With Settings of Burlap and Pasteboard.

Few stock companies have ever attracted as much attention as the amateur company of Chautauqua Players, which produce the best obtainable plays, both modern and classic, in the big auditorium at Chautauqua, N. Y.

M. Benedict Papot, who is an instructor of languages at Chicago university, directs the company of twenty and, with the common combinations of burlap and pasteboard backgrounds, obtains effects that are pronounced marvelous by the best critics.

M. Papot has long been known as the "best amateur stage director in America" and has a wonderful capacity for contriving scenic effects. He is a hard worker and during the Christmas vacation took his company to New York city, where they produced their repertoire under the auspices of the House of Ely Foundation, at St. Mark's church on the Bowery.

The New York Times gave them high praise, and their stay had to be prolonged to repeat several productions.

Everywhere there is now a great vogue for amateur theatricals and for simplicity in stage effects. Chautauqua has taken the lead in this respect, and her players have won applause whenever they have gone.

Phenora's "Sweet Lavender," Clyde Fitch's "Nathan Hale" and Grady's "A Tale of Spectacles" will be given this season.

### A CHILD'S PARADISE.

All Ages Cared For by Trained Attendants.

No summer resort in America plans more carefully for the children whether babies, half grown, or youngsters of twelve to eighteen, than does the big institution at Chautauqua, New York.

A great kindergarten nursery is provided for the little ones, with plenty of sunshine and fresh air. Here young women who are training themselves in the Summer School to become kindergarten teachers give them the best attention. Babies can be checked here like luggage, and the tired mother who wants to be free for the whole day can leave her baby in the morning and call for it at night, with the surety that it will be well fed and cured for.

A playground and elementary school take care of older children who must be kept busy at something, half study and half play. Then the Great Playground, with its steep, rocky walls for fencing, and its big piles of pure white sand, and its running brook makes the best sort of a place for children to romp and paddle about in.

The older children have an out of doors gymnasium in which are the usual collection of seesaws, ladders, natural slides, climbing poles, climbing bars and merry-go-rounds. Over 500 children are registered in the Summer school classes which are graded for all ages, and where individual instruction can be given if needed.

Studies of birds and animal life are emphasized, when squads of youngsters are taken for long walks over the hills or paddling about in the lake. The Boy Scouts are most active in their program under a district master. And the Boys' Club House and Girls' Club House offer a fine place for gathering, whether in the daytime or in the evening.

Few summer resorts cater to "family trade" as does this famous Chautauqua. Its object is to give happiness and health to every member of the family.

### WOMEN INDORSE CHAUTAUQUA

Strengthened and Encouraged by It. Declares Noted Club President.

"From Chautauqua, N. Y., 1,500 letters to the million women of the General Federation of Women's Clubs strengthened and encouraged and told them of that place where a woman can be rejuvenated and sent back home proud of that noblest profession—a woman," said Mrs. Percy V. Pennybacker, president of this largest organization of women, in a recent interview.

"Women everywhere are taking a live interest in public affairs, civic and social administration. The minds are open to new facts. At Chautauqua they find the greatest preachers, the best teachers, famous writers and statesmen."

"The democratic air of comfort and informality brings speaker and audience closer together. The rolling hills, the pleasant walls, the breezing hill and lake air strengthen the curework. This combination makes every audience they are alive, whether woman or man or child."

### Summer Schools at Chautauqua, N. Y.

For many years registration in Chautauqua's Summer Schools has annually exceeded all previous records. The reason is obviously in the excellent service which is given by the corps of university teachers and instructors along professional lines. Two thousand four hundred students and more were registered during July and August, 1914. The institution supplies 110 instructors, according to their regular curriculum. Ten college buildings and 300 separate courses are available.

Nine hundred children are cared for in classes under their special department. These schools were organized in 1885 by President William H. Harper of the University of Chicago and have since then set an example which has been the standard for nearly all the great summer schools of this country.

Twenty scholarships entitling the holders to Summer School privileges are given out annually to teachers in Ohio, Pennsylvania and New York. Bishop Vincent's motto, "Education

## A CLEW TO HER PAST.

She Knew Entirely Too Much, As a Close Observer Discovers.

She looked rich and acted rich, and every one knew that she was rich because she had married a rich man, yet the Sherlock Holmes of the tea party discovered that she had once been poor. "Take it from me," she said, "that there was a time, and that not so very long ago, when she was as poor as the rest of us."

"Marvelous!" exclaimed the other four girls. "How did you discover that?"

"Through her knowing so absolutely where I keep all my housekeeping things. She knew that the tea caddy was in the writing desk, that the cheese, biscuits and other edibles beloved by mice were in that tin box under the sofa, that the alcohol for my stove was in the corner behind the washstand, that the butter and milk were on the window ledge and that the eggs and other raw foods were in a box on the bottom shelf of the wardrobe."

"When we were cooking she went straight to the spot and got every one of those things without once asking where they were, which is something that a person who had not had a wide experience of housekeeping in one room could never have done."—New York Times.

## COKE OPERATORS STAND OUT FOR TWO DOLLAR COKE

For Fourth Quarter Despite  
Desultory Offerings of  
Cheap Spot Coke.

## CONTRACT DEMAND IMPROVES

Foundry Coke is Stronger in Symptom  
With Heavier Foundry Operations.  
Specially, Coke Ought to be  
Better as Pig Iron is Advancing.

**Special to The Weekly Courier.**  
PITTSBURGH, Aug. 11.—The general  
coke market has reacted to a certain  
degree as a result of the continued  
and definite of prompt furnace coke  
at \$1.50. The slow of operators as to  
what prices will be in the fourth  
quarter are undecided. They reacted  
to the higher of prompt coke, and  
the price for that delivery. The price  
at which the world of coke is being  
from now to the end of the year, how-  
ever, is a composite of what may be  
done for prompt coke, and what may  
be done for fourth quarter coke.  
If coke is worth \$2.00 for fourth  
quarter and out \$1.00 for 1915 for  
August and September, it is worth  
while to sell for the whole year at  
\$1.50.

There has been such an improve-  
ment in demand for coke on contract  
in the past week or two that the con-  
tinuance of offerings of prompt coke  
would be expected for fourth quarter,  
i. e., if coke is worth \$2.00 for fourth  
quarter and out \$1.00 for 1915 for  
August and September, it is worth  
while to sell for the whole year at  
\$1.50.

There has been such an improve-  
ment in demand for coke on contract  
in the past week or two that the con-  
tinuance of offerings of prompt coke  
would be expected for fourth quarter,  
i. e., if coke is worth \$2.00 for fourth  
quarter and out \$1.00 for 1915 for  
August and September, it is worth  
while to sell for the whole year at  
\$1.50.

There are hardly any definite per-  
sonations for contract furnace coke in  
progress, and prices on contract are  
not well defined. Since the prompt  
coke is obtainable at least in limited  
quantities at \$1.50, there would doubt-  
less be found buyers for delivery from  
now to October 1 at \$1.50 to \$1.75,  
while for delivery to January 1, some  
operators would double a good \$1.50  
with prompt coke, although there are  
some who adhere to the old quota-  
tion of \$2.00. Foundry coke has not  
suffered from the continued weakness  
in prompt furnace coke, but is stronger,  
in sympathy with heavier opera-  
tions of the foundries. The market is  
a whole lot stronger as follows:

Contract furnace coke to Jan. 1, \$1.50 to \$1.75  
Contract furnace coke to Jan. 1, \$1.50 to \$1.75  
Prompt furnace coke, \$1.50 to \$1.75  
Contract foundry coke, \$2.00 to \$2.50

There has been a continued good de-  
mand for foundry pig iron, chiefly in  
relatively small lots for this coke de-  
livery, but there has also been a fair  
demand for delivery next year, and  
while the furnace coke is a rule half-  
passed to quote for ahead, there are  
several quotations made.

Standard. Standard. Standard. Standard.  
The company has bought 20,000 tons of  
foundry and force grade for delivery  
over the first half of next year, pro-  
viding the market for this important  
business has been the same for the  
year. The company is in market for  
prompt shipment advanced the first  
week from \$12.50 to \$12.75, Valley,  
and has since advanced to \$13.50,  
while at the same time the price for  
delivery in the fourth quarter of next  
year.

In December and last year quota-  
tions have advanced sharply, the regu-  
lar price being \$15.00 and \$14.00,  
respectively, representing ad-  
vances of 10 cents per ton in  
December and \$1.00 in January, but  
there is a question whether the ad-  
vance of asking prices are well estab-  
lished. Such are reported at the mo-  
ment, but they are not reported with  
the circumstance of detail that accom-  
panied reports of advance in 1912 and  
1913 when pig iron and steel products  
generally were advancing in some  
what the same manner as at present.

## STEEL TRADE QUIET BUT STRONG AND PROMISING

Pig Iron Has Advanced From 75c to \$1  
For Ten Days August 1st.  
Deserting for Export.

**Special to The Weekly Courier.**  
NEW YORK, Aug. 11.—The Ameri-  
can Steel Market and Daily Iron &  
Steel Report will review the iron and  
steel situation tomorrow as follows:  
With the steel market quiet, but  
with strong and promising, and pig  
iron are taking their turn and pre-  
sent active and excited markets.  
Heavy melting steel is reported to  
have reached \$15, delivered Pittsburgh,  
representing an advance of \$4 in 20  
days. The advance at Pittsburgh fol-  
lowed advances in the eastern and  
other markets, whereby much  
material that had been going to the  
Pittsburgh district is diverted to those  
districts.

All the important pig iron markets  
have advanced in the past week.  
Southern moving up to \$10.50, Pitts-  
burgh, and evidently leading, for  
\$12.50. Valley furnace coke, at Phila-  
delphia is strong at \$14.75, and the  
Chicago market has moved up 50  
cents to \$13.50 at Chicago furnace. In  
the position of the Valley furnace  
there is a strong tendency to a con-  
solidated market, where only recently  
cutting into their territory, while now  
Valley coke is traveling far ahead  
of the market. The Valley market  
has shown the following advance:  
Pittsburgh from 75 cents to \$14.50, to-  
day, \$14.75; Bessemer 75 cents to \$15.  
Bessemer is in heavy demand for ex-  
port and one prominent interest has  
stopped quoting an export price com-  
parative to the current market at home.  
The Steel Corporation's increase in  
unfilled orders to July, 250,000  
tons, is less than was expected. In  
many quarters, and in the opinion of  
the firm, it is attributed to the im-  
balance of a conservative sales policy  
in view of the very promising months  
that lie before the firm.

The production of steel in the  
United States in 1914 is officially re-  
ported at 25,140,000 gross tons, a decrease of  
2.5% from 1913, the record year. The  
production of rolled iron and steel  
was 15,570,100 gross tons, a decrease  
of 2.5%. The production of pig iron in  
the first half of 1914 is 12,257,701  
gross tons, or 12% above that of the  
first half of 1913 and 2% above that  
of the first half of 1914.

## BUILDING NEW OVENS

One Hundred Twenty Will be Added  
to Hooper Plant Next Month.

Under the supervision of James C.  
Hooper, owner of the plant, 175 East  
Main at McMillanstown, the 120 new  
ovens, upon which work during  
the past few months has been pushed,  
will probably reach completion some  
time next month.

Construction on these ovens was  
started several years ago, but work  
was delayed from time to time. The  
construction work, however, from this  
time on will go forward without a  
break.

The plant will be operated by elec-  
tricity. Seventy-four ovens of the  
same type are already in operation at  
the McMillanstown plant.

## GETTING PLANT READY.

Coke and Limestone Needed for Min-  
neapolis Plant of Steel Corporation.

Preparations for starting the new  
120,000-ton plant of the United States  
Steel Corporation at Minneapolis in  
September are well under way. The  
first coal was shipped to the plant  
from the Duluth docks last week.

The product ovens at the plant have  
been fired with a view to thoroughly  
drying out the linings, prior to the  
manufacture of coke.

Cargoes of limestone and coal have  
been started from lower lake ports  
and are now on their way to Duluth,  
where it is expected the plant will be  
in operation early in September.

Accepts Rate Reduction.  
The Hooper Valley railroad has  
accepted the decision of the Ohio  
supreme court reducing the rates on  
coal from Armitage, O., to Toledo,  
from \$1 to 55 cents. This gives the  
Ohio coal a differential of 10 cents  
a ton instead of 25 cents against West  
Virginia mines.

Shack Coal in Demand.  
Increased activity on the part of  
the cement companies in Eastern  
Pennsylvania has caused a better de-  
mand for slack coal than has existed  
for some time.

## At the Theatres

### SOISSON THEATRE

"THE DIAMOND FROM THE  
SKY"—The fifth episode of "The  
Diamond from the Sky" will be pre-  
sented at the Soisson Theatre today.  
Lottie Pickford and Irving Cummings  
are the stars in the cast, which is a  
good one. The play is sensational  
and good from the start. The three  
act drama "Bound to the Wheel,"  
has Eddie Lang, William and Lou  
Cheney as the features, and they  
more than "make good." The play  
is a strong feature with many beau-  
tiful scenes. The Soisson company  
"The Tale of the Doctor" is full of  
robust laughter. Tomorrow the  
sixth episode of the popular serial,  
"The Romance of Elaine," will be  
the attraction. Saturday the World  
Film Corporation will present Eugene  
O'Brien and Elaine Hammerstein in  
the celebrated live reel Shallett fea-  
ture, "The Moonstone."

### NEW COAL PIER

R. & O. Having Plans Prepared for  
Curtis Day Improvement.

An indication of the intention of  
the Baltimore & Ohio railroad to pro-  
vide an early date a new coal pier  
at Curtis Bay, to handle its growing  
export business at this port, is the  
fact that the company is now having  
tentative plans prepared for the pro-  
posed improvement by its engineering  
department which are expected to be  
completed within the next few weeks.

It was stated that the new pier  
would probably be 110 feet wide by  
about 700 feet long and that it would  
cost about \$1,000,000. The capacity  
of the pier will not be known until  
the plans are ready to be put up to  
the officials of the road.

The Baltimore & Ohio's present  
pier at Curtis Bay has a capacity of  
2,000 tons of coal an hour.

### GETS URGENT ORDER.

Canadian Car & Foundry War Busi-  
ness to Exceed \$100,000,000.

Orders which have been under  
negotiations for the last few weeks  
by the Canadian Car & Foundry Com-  
pany, constitute the largest orders on  
sharpened negotiated in America by the  
company since the company since the  
beginning of the war.

The contract on the appropriation  
of \$71,000,000 of this order has been  
closed, and the remainder, lifting the  
order was about the \$100,000,000  
mark, will probably be closed within  
the next few days.

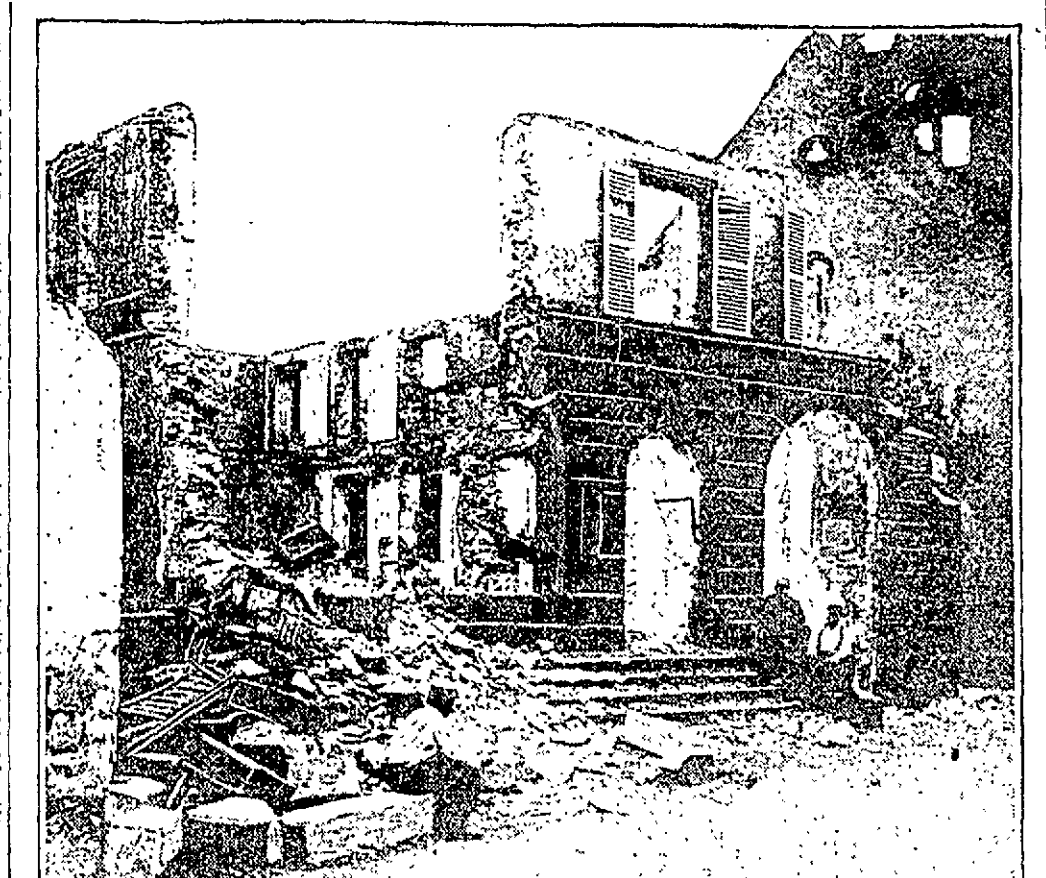

The assembling plant of the com-  
pany on the fringe of the Hackensack  
Marshes at Kingsland, N. J., is being  
rapidly rushed to completion.

After Foreign Business.  
The Pittsburgh Coal Company has  
established a branch office in Buenos  
Aires to handle Argentine and other  
South American business.

## Mayor's Home at Aspach-Le-Haut Directly in the Line of Fire of Contending Armies.

RUINS OF MAYOR'S HOUSE AT ASPACH LE HAUT

The accompanying illustration, taken less than a month ago in Alsace-Lorraine, gives an idea of the damage  
wrought by shell fire in the European war. The home of the mayor of Aspach-le-Haut was a show place. In the  
terrible artillery duel waged by the vast contending forces the once handsome home virtually was "shot to pieces."
